

ZWW / ZWW-L WALL MOUNTED RACK AND PINION JACKS

ZWW / ZWW-L, wall-mounted rack and pinion jacks

Capacities: 250 - 10000kg

Wall-mounted rack and pinion jacks are used for lifting, lowering, pulling and pushing of loads.

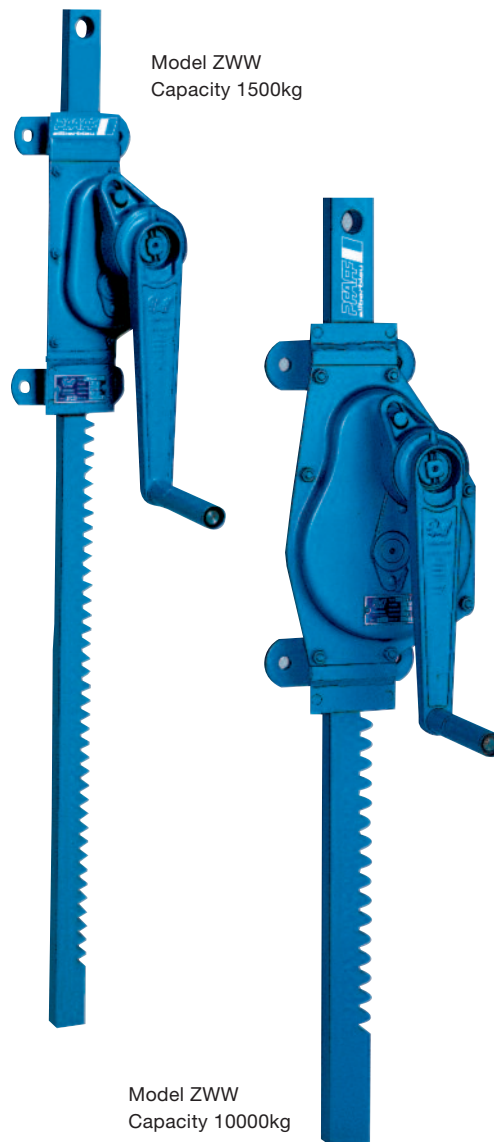

Features and benefits include:

- Robust steel design with precisely machined worm and spur gears for smooth and easy manual operation.
- Solid steel rack with additional bore hole for fastening of the load.
- Low wear owing to hardened gearing parts and precisely machined teeth.
- Suitable for a lifting load of up to 5000 kg for pushing and pulling loads.
- Rigid wall mounting.

Options

- Rack extensions
- Special fastening arrangements for shaft and rack
- Improved corrosion protection owing to zinc-plating
- With folding handle.

Model ZWW
Capacity 1500kg

Model ZWW-L
Capacity 1000kg

Model ZWW-L
Capacity 250 and 500kg

Model ZWW
Capacity 10000kg
